

**Try Eraspray ES81A HB for a Simple Spray System with Low Entry Costs!**

*Excellence in Polyurethane Chemistry*

Eraspray ES81A HB is a premium grade, high performance solvated polyurethane spray elastomer system with excellent abrasion resistance.

In addition to **Excellent Abrasion Resistance**, **Eraspray ES81A HB** offers **Corrosion Protection** and can be applied with **Standard Airless Spray Equipment**; so there is no need to buy specialist equipment.

Supplied in pre-weighed kits **Eraspray ES81A HB** is packaged in such a way that all 3 components can be mixed together in the PART A pail, making the application process as easy as possible for the contractor.

**Eraspray ES81A HB also offers:**

Rapid Build Up	Can be applied 3-4 times thicker than conventional solvated spray elastomers systems without cracking
A Strong Bond to Any Substrate	Subject to correct surface preparation
Flexibility	Suitable for expansion and contraction of metal associated with climate change or equipment that is subject to movement
Room Temperature Cure	Sufficient Green Strength after 16 – 24 Hours Full Cure after 5 days at same temperature
